### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The claims teach concentrations that are not taught by the prior art combination. The Godbey reference teaches a combination of percutaneous penetration enhancers including polyoxyethylene oleyl ether and isopropyl myristate but is silent to the specific concentrations taught by the instant claims (10-20%). Further the combination is non obvious over the proposed combination since it provides an unexpected and surprisingly high transfer amount of the active ingredient. It would have been expected for the effect of the two penetration enhancers to have an additive effect. Yet as shown in Table #2 of the responsive arguments, the results for the claimed concentration ranges are between 2.419 and 4.375 times higher than an expected additive effect. This shows the unexpected result of a marked increase in cumulative drug transfer not taught or suggested by the prior art combination. For these reason the claims are novel and non-obvious over the prior art. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Micah-Paul Young whose telephone number is 571-272-0608. The examiner can normally be reached on M-F 7:00-4:30 every other Monday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thurman K. Page can be reached on 571-272-0602. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
